

English Language Teaching in the Era of Globalization 4.0: Embracing the Challenges and Innovations

An Online Blended Program for Integrated English Language Skills

© Erina Hunt, November 2020 - International Virtual Conference on TESOL for SEAMEO Regional Training Center, Vietnam and Curtin University, Australia

Contents

- ▶ Challenges and Innovations
- ▶ Background – the Teaching Experience
- ▶ Technology-enhanced ELT – Designing the New Paradigm
- ▶ The OBELP
- ▶ Practical Perspectives

What is the era of Globalisation 4.0?

Staying with an outdated mindset and existing processes will not do. We need to redesign them.

Traditional

New paradigm

Challenges

1 – what defines an English language speaker?

2 – how to become an effective teacher in the new paradigm?

3 – how to equip L2 users with the knowledge, skills and confidence required for present-day sociolinguistic realities of English as an international language?

4 - how can teachers innovate to make English language more accessible?

Innovations

The University of Otago OBELP seeks to overcome these ELT challenges:

- ▶ designed with contemporary pedagogy and methodology at the core
- ▶ designed for customized flexibility
- ▶ designed to blend all skills in an interactive and engaging blended environment
- ▶ designed to be delivered globally 24/7

Background

- ▶ How UOLC future-proofed (tele-collaboration and offshore delivery)
- ▶ Designing the new paradigm
- ▶ Pilot/Trial (2019, 2020)
- ▶ Covid -19
- ▶ Going commercial (2020)

Background – the teaching experience

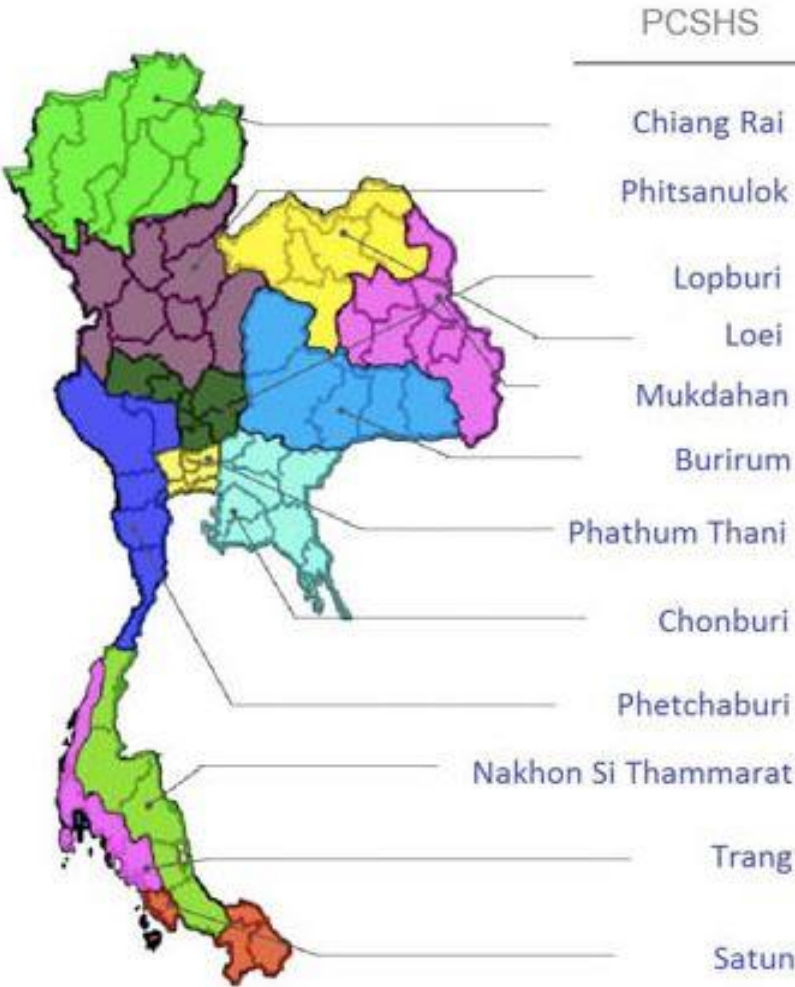

10,317 km

Distance from Dunedin to Otaru

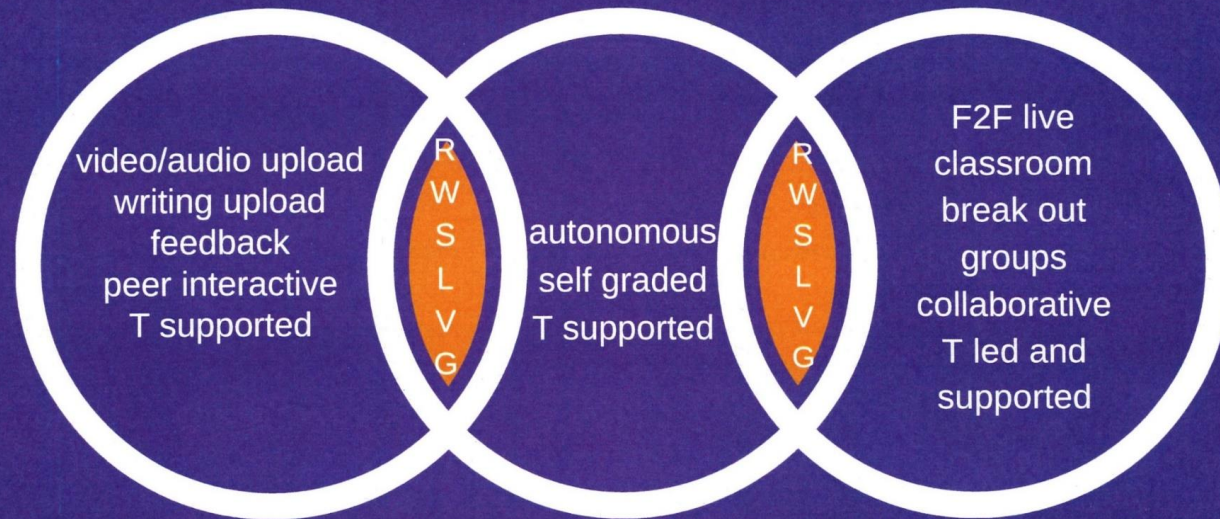

8,378 km

Distance from Pontian District to Dunedin

Designing
the new
paradigm

Telecollaboration and OBELP Pilot/Trial

- ▶ 2017/2018 (18 students in Japan)
- ▶ 2019 (24 teachers in Thailand)
- ▶ 2020 (40 students in Malaysia)

Going Commercial

- ▶ 2020 (91 teachers in Thailand)
- ▶ 2020 (120 students in Thailand)

The Constructive Alignment Model

“Constructive alignment is a principle used for devising teaching and learning activities, and assessment tasks, that directly address the intended learning outcomes (ILOs) in a way not typically achieved in traditional lectures, tutorial classes and examinations.” (Biggs & Tang, 2011)

“Compatibility comes from using electronic means through the technology platform itself, and by using reflective and collaborative outcomes to align assessment with the teaching and learning characteristics of the e-tivities.” (Salmon, G. 2013)

Padlet

kuraCloud

Zoom

kuraCloud

KuraCloud

kuraCloud is a cloud-based, eLearning technology used to deliver highly interactive and engaging lessons, which can be accessed online – anytime, anywhere

<https://syd1.kuracloud.com/i/68e48bf0/staff/courses/11>

padlet

Padlet

Padlet is a web app that lets users post notes or audio/video on a digital wall 24/7

https://padlet.com/erina_hunt/5ojbrnppv12b

For speaking AND writing response

https://padlet.com/erina_hunt/ipx5mx1x2b4i

zoom

Zoom is the leader in modern enterprise video communications, with an easy, reliable cloud platform for video and audio conferencing, chat, and webinars

Practical perspectives

- ▶ Time consuming
- ▶ Immediacy expectation
- ▶ Technological barriers
- ▶ Engagement
- ▶ Nurture/needs variables
- ▶ Content delivery
- ▶ Fatigue

Practical perspectives resolved

- ▶ Time consuming – collaborate with peers
- ▶ Immediacy expectation – set boundaries
- ▶ Technological barriers – ensure connectivity
- ▶ Engagement – variety of platforms and personalized feedback (written/video/audio bytes)
- ▶ Nurture/needs variables – regular check ins
- ▶ Content delivery – speak with enthusiasm and vary pace, use active learning techniques
- ▶ Fatigue – pace accordingly, be careful of cognitive load, use segmenting, weeding
