EDUCATIONAL LEADERSHIP AND MANAGEMENT TOWARD(S) INCLUSIVE AND EQUITABLE QUALITY EDUCATION FROM VIETNAM'S PERSPECTIVE

Management and leadership in education play a crucial role in shaping the educational system with actual activities and boosting educational efficiency. With efforts to promote inclusive and equitable quality education, Vietnam always attempts to transform the management and leadership mechanism to develop suitable policies and operational models. The presentation briefly describes typical innovation in management and leadership towards inclusive and equitable education quality in Vietnam's general education. Specific policies related to inclusive education for children with disabilities, marginalized children, and gifted children are also discussed and shared in this presentation.
