TOWARD ENDING GENDER INEQUALITY WITH ROOM TO READ'S GIRLS 'EDUCATION PROGRAM INTERVENTION AND IN OUR LIFETIMES

Room to Read believes that World Change starts with Educated Children. RtR believes that all children have the right to education but recognizes that at a global level and in Vietnam, there are places where girls are facing multiple disadvantages as well as gender bias. Thus, Room to Read focuses our support on girls 'education in places where gender disparity persists.

Room to Read's Girls Education & Gender Equality Program (GEP) has a deep focus on girls' education and also includes a set of interventions that improve the educational systems where girls and boys learn, taking full advantage of the opportunity that adolescence presents for changing social norms.

Girls Education & Gender Equality Program omprises four key components: (i) Life skills Education; (ii) Mentoring and peer support; (iii) Family, School and Community Engagement and (iv) Material support.

Girls Education & Gender Equality Program equips girls with the tools to self-advocate and chart a path that they choose for themselves.

Room to Read's Girls' Education and Gender Equality Portfolio fosters a more gender-equal world by ensuring that young people of all genders are fulfilled and have the necessary skills to make positive change and contribute equitable solutions to the most pressing challenges – in their families, communities and the world.
