Regional training course on "Leadership and Management for Higher Education in Global Context"
October 24-27, 2023

SEAMEO RETRAC recently organized a regional training course on "Leadership and Management for Higher Education in Global context" from October 24th to 27th, 2023 at the Center's premises. The course welcomed participants, including leaders, administrators, and managers, from different university, colleges, and institutions both within and outside of Vietnam.

Throughout the four-day training, participants engaged in dynamic discussions, exchanged ideas and shared valuable experiences on implementing effective leadership and management strategies. They explored various approaches and learned from one another's successes and challenges, gaining practical insights to apply in their own institutions. The collaborative environment fostered networking opportunities, enabling ongoing connections and potential future collaborations. By the end of the training, participants were equipped with a wealth of knowledge and practical tools to enhance their leadership and management practices, ensuring the continued growth and success of their respective institutions.

On November 28-29 and December 07-08, 2023, SEAMEO RETRAC held two training courses on "AI Applications in Teaching and Research" at the Center's premises. These courses welcomed up to 50 lecturers and academic staff from various universities and colleges in Ho Chi Minh City and nearby provinces.

Training courses on
"Artificial Intelligence (AI) Applications in Teaching and Research"
November 28-29 and December 07-08, 2023

The primary aims of the course were as follows: (1) to provide an overview of the current applications of AI, (2) to impart techniques on utilizing AI applications effectively, (3) to explore the use of ChatGPT in research and teaching, and (4) to introduce the latest advancements in AI applications for research and teaching. Over the two-day course, participants were introduced to cutting-edge AI tools that could be utilized for creating lectures and teaching materials. They were also familiarized with the associated issues and challenges related to the implementation of these tools in teaching. Furthermore, participants were given opportunities to apply these applications in real teaching scenarios, allowing them to gain practical experience and exchange insights with both their peers and the trainer.

Training courses on
"Human Resource Management in Higher Education"
December 12-13, 2023

From 12 to 13, December, 2023, SEAMEO RETRAC organized a training course on "Human Resource Management in Higher Education" for leaders, administrators, managers and officers in human resource department at various university, colleges, and educational institutions in Ho Chi Minh City and its nearby provinces. The course was held at the Center's premises, 35 Le Thanh Ton Street, District 1, Ho Chi Minh City.

With the aim of providing participants with knowledge and skills about human resource management in higher education, this course created plenty of opportunities for participants to actively involve into insightful discussions about human resource managing strategies as well as practical activities to implement these strategies in their institutions. Several topics introduced in the two-day course related to staff development, HR management in association with Labor Law, etc.

Training course on
"ICT Applications in Teaching through Integration of Multimedia Content"
December 27-28, 2023

SEAMEO RETRAC held a training course on "ICT Applications in Teaching through the Integration of Multimedia Content." The course was organized from December 27 to December 28, 2023 for lecturers and academic staff working at different departments and majors from various universities and colleges in Ho Chi Minh City and its neighboring provinces.

The main objective of the course was to provide participants with the opportunity to explore online learning and enhance their computing skills in utilizing Interactive ICT tools for teaching. The course was conducted at the SEAMEO RETRAC's premises 35 Le Thanh Ton Street, District 1, Ho Chi Minh City.

Throughout the two-day training course, participants were introduced to various ICT applications and websites that would assist them in designing and editing pictures, sounds, and videos. They also learned how to create interactive games, quizzes, and tested to assess students' understanding during lessons. Moreover, participants had opportunities to access training materials, engage in discussions with the trainer and other participants, and practice using ICT tools in their own lectures.
